POST SHIELDED COMMUNISTS IS CHARGE IN HOUSE

Many Deportations Cancelled.
By Assistant Secretary of
Labor.

PROBE NOW IS UNDER WAY

Department Official Followed Recommendation of His Chief, Secretary Wilson, For Time, Then Followed Policy of Own, Committee Told.

By Associated Press.
WASHINGTON, April 27.—Charges that Louis F. Post, assistant secretary of labor, had violated the law in behalf of aliens who have contempt for this government and who are trying to overthrow it, were made before the House Rules committee today by Chairman Johnson of the House Immigration committee.
Johnson was the first witness at the investigation into Post's conduct in handling deportation proceedings against radical aliens. He was followed by Representative Hoeh of Kansas whose resolution looking toward the possible impeachment of the assistant secretary is before the committee.
Chairman Johnson presented a report of committee investigators prepared by W. A. Blackwood of Seattle, Wash., which reviewed many scores of cases in which Post was said to have cancelled deportations recommended by inspectors and the immigration bureau. The cases, Johnson said, were those of "alien communists and anarchists."
The report, according to Johnson, showed the assistant secretary followed "for a time the opinion of Secretary Wilson" that membership in the communist party was ground for deportation but that he later "changed his mind" and ordered many communists freed by cancelling the deportation warrants.

YARDMEN ARRESTED

Two Pittsburghers Fined \$25 Each for Tampering With Brakes.

By Associated Press.
PITTSBURGH, April 27.—First arrests in connection with the railroad strike were made here today when two former yardmen were arrested for tampering with airbrakes of a freight train near Herr's Island stockyards. The men were fined \$25 each.

Railroad managers reported continued improvement in freight and passenger service but freight movement was still far from normal. A number of Baltimore Ohio yardmen who struck yesterday after returning to work last Saturday were back in their places today, the management said, but car movement was still hampered by the number of men out.

MINERS GO ON STRIKE

Eight-Hour Day and Nine Hours' Pay Refused by Stoneboro Operators.

By Associated Press.
SHARON, April 27.—Three hundred fifty coal miners in the Stoneboro district have gone on strike again for an eight-hour day and nine hours' pay. The men became dissatisfied 10 days ago and at that time walked out, but were induced to return. Subsequently a scale was signed by which the men were given the rate recently prescribed by the Fuel Administration. The laborers then demanded an eight-hour day and nine hours' pay. This was definitely refused.

Mercer county miners are partly organized, about 60 per cent of them belonging to the United Mine Workers.

BUILDERS TALK WAGES

Strike of Members of Several Crafts Threatened May 1.

By Associated Press.
YOUNGSTOWN, April 27.—Thirty representatives of builders' exchanges in Ohio and Western Pennsylvania cities, including Pittsburgh and Cleveland, were in session here today discussing wage demands of building crafts. Union leaders said that unless settlement is made of the demands by May 1 a strike will result.

An agreement already has been reached in three crafts, it was said, the painters' scale being fixed at \$1.22 an hour, electrical workers, \$1.16, and sheet metal workers, \$1.12. Masons are asking \$1.40 and carpenters \$1.21.

DAYLIGHT SAVING IT PITTSBURGH TO GET INTO COURT

McKeesport Council Meets Later in Week to Consider What Shall Be Done; Much Confusion.

By Associated Press.
PITTSBURGH, April 27.—With McKeesport threatening to go into court to prevent Pittsburgh from enforcing its daylight saving ordinance on the ground that business in Allegheny county will be confused, Greensburg today announced that it had adopted daylight saving at 2 o'clock this morning. The McKeesport movement would be officially taken up by the city council later in the week.
Much confusion resulted in Pittsburgh and vicinity from enforcement of the ordinance yesterday and today. Local trains on the Pennsylvania railroad were operated on the new time and through trains on eastern standard time but the Baltimore & Ohio and Pittsburgh & Lake Erie, both of which carry large numbers of commuters, made no changes.

By Associated Press.
INDIANAPOLIS, April 27.—William Ray, confessed slayer of 14-year old Martha Huff, was placed on trial in criminal court here today on a charge of first degree murder. Many policemen and detectives guarded the defendant and every precaution was taken to prevent an uprising.
Ray stood mute when arraigned and a formal plea of not guilty was ordered by the court. Selection of a jury from a special venire of 125 men then began. It was believed that the case would go to the jury before the end of the day.

Anderson, who is now assistant to Vice President and General Manager Harry L. Mitchell, in Pittsburgh. The appointment of Mr. Alt, which is quite a promotion, became effective on April 22.
Alt was transferred from the laboratory of the West Side, where he was a clerk. He had held that position for seven years. Previous to becoming a laboratory clerk Mr. Alt was file clerk in the main offices here. He has been succeeded at the laboratory by Henry Newberg who was transferred from the power house store-room.
Although his appointment did not become effective until April 22, Mr. Alt has been acting as chief clerk since April 1, when Mr. Anderson went to Pittsburgh.

WASHINGTON IN MIDDLE

Adoption of Daylight Saving in Pittsburgh Is the Cause.

By Associated Press.
WASHINGTON, Pa., April 27.—Because of the adoption of daylight saving in Pittsburgh, Washington was in a great muddle today. The town remained on the old schedule so far as clocks were concerned but interurban electric cars and steam trains were operated according to Smoky City time. Burgess E. P. Browne issued a proclamation asking the people to adopt the daylight saving rule. Some of the stores opened under the new time, some the old.
Despite the fact that the superintendent of schools had made no ruling, some principals summoned their departments together under the new time, some under the old. A mass meeting has been called for today to determine what shall be done.

DEADLOCK ON WAGES

Pittsburgh Carmen Called to Meet Tonight to Vote on Strike.

By Associated Press.
PITTSBURGH, April 27.—Receivers of the Pittsburgh Railways company and the wage committee representing the company's motormen and conductors were deadlocked on the men's demands for a 75 per cent increase in wages when the wage conference adjourned today for lunch. So far was each side in its determination that they joined in asking for a conference with Mayor E. V. Babcock and council later in the day.
The wage scale under which the men are working will expire May 1 and a meeting has been called for tonight to vote on the question of a strike if the demands of the men are not met.

ARGUE DAYLIGHT SAVING

Theories Favorable to Both Sides Are Advanced.

Considerable argument on various phases of daylight saving can be heard in Connellsville. The forces for and against the plan are about equally divided. The general feeling seems to be satisfaction with the present system of time.
One strong argument against the daylight saving plan advanced is that it is too hard on children. It is pointed out that the child, while getting practically the same sleep in hours, really loses two hours. Children going to bed about dark at present would be up an hour later by the sun and would rise in the morning by the clock, which is an hour ahead of the sun time.

The No. 1 well of the United McKeesport Oil & Gas company at McKeesport, promoted by J. Melvin Grey, A. C. Herwick and others of Connellsville, came in today with a flow estimated at five million cubic feet, according to a telegram received at noon from Mr. Grey.

Well No. 2 is expected in tomorrow. There are many Connellsville stockholders in the company which was promoted as a four-well proposition. The Mills well in upper Snake Hollow, McKeesport, has a big flow of gas. When the drill was two feet in the sand a flow of 3,000,000 feet of gas was struck. Farmington No. 1, Five Fields, has a flow of 3,000,000 feet and the drill bit 15 feet in the sand.
Lucky Queen No. 1, in which several Connellsville persons are shareholders, had bad luck. They struck the Speckley sand on Saturday afternoon at a depth of 2,890 feet, and it was the intention to drill in the well on Sunday, but it was found a valve stem was broken and this delayed drilling until this morning.

THE CANVASS GOES ON

Of 11 churches in Fayette county reported today by Campaign Director J. W. Dawson of Uniontown as over the top in the Interchurch World Movement drive, five are in Connellsville and all of the number completed the work Sunday, the initial day. The others over their quotas were: Presbyterian and Methodist Episcopal, Smithfield, Christian, Tower Hill; Central Christian and First Methodist Protestant, Uniontown, and Oak Hill Baptist, Nicholson township. The work is being continued this week. With the church canvasses well out of the way attention is being given to the "friendly citizens" drives. In Connellsville the biggest task ahead is that of the First Christian church which was \$26,000 short Sunday night on the combined building fund and Interchurch quota. Reports will be made Wednesday evening at 7:30 o'clock at which time all members of the church are urged to be present.

HOPE TO CONCLUDE CHRISTIAN CHURCH CAMPAIGN TOMORROW

Meeting of Congregation to Hear Reports of Teams and Take Such Steps as May Be Necessary.

The executive committee, captains and teams of the Christian church are active today in completing plans for a meeting of the membership to be held tomorrow evening at 7:30 to hear reports of the teams and to take steps for closing up the campaign for \$68,000 which began on Sunday.

With practically two-thirds of the amount having been secured already, from only 135 subscriptions, it is confidently expected that the members, including those who have already subscribed and also those who were not found at home on Sunday, will heed the urgent invitations that are being made to be present tomorrow evening. It is the determination of the executive committee to conclude the canvass at the very earliest moment, tomorrow night if possible. If this is not done it will be necessary to make other visits to the homes of members who were not seen on Sunday or have not yet subscribed.
Quite a number of subscriptions were secured yesterday and last evening and team members are today engaged in re-visiting the homes of members whom they did not see on Sunday.

A program suitable for the purpose of the meeting tomorrow evening is being prepared which will be of interest aside from the main object of bringing the campaign to a successful close.

THREE STATES ARE HOLDING ELECTIONS

Presidential Preference Fights on in New Jersey and Ohio.

By Associated Press.
Three states throughout the union are today voting on candidates for public office.

In Massachusetts the voters are balloting on four delegates-at-large to the Democratic and Republican national conventions. None of the candidates for delegate-at-large appeared on the ballot as pledged for any particular candidate.

In New Jersey the chief interest in the preferential presidential primary was focused on Republican contests where the voters were asked to express their preference for either Senator Hiram W. Johnson or Major General Leonard Wood. Democratic voters were not asked to indicate a direct preference. The unopposed "big four" Democratic delegation is pledged to the candidacy of Governor Edwards. Each party will elect 28 delegates to its respective national convention.

The voters of Ohio were expressing their preference for presidential candidates and electing delegates to the Republican and Democratic national conventions. The principal interest in the fight there was between Major General Leonard Wood and Senator Warren Harding for the presidential Republican endorsement, and for the control of the 48 delegates to the national convention.

SCOUT EXECUTIVE EMPLOYED FOR THE VACATION SEASON

Edwin L. Folk of High School Faculty is Selected for the Place.

TO SUPERVISE ACTIVITIES

Of All Scouts in the City, Organize New Troops and Give General Direction to the Movement; Father and Son Banquet Due to be Fixed.

The need for giving systematic and skilled direction to the activities of the Boy Scouts in Connellsville having long been recognized, the Scout Council last night authorized the employment of Edwin L. Folk to give his entire time to the work for three months beginning June 10. This period covers the school vacation season during which the troops are busiest with their hikes and other undertakings, including the summer camp. The scout executive, as Mr. Folk will be known, will have general supervision of the troops through the scout masters and will keep in close touch with their work. He will oversee public events to be scheduled by the troops and have general direction of the different "troops." He will devote part of his time to the organization of new troops, it being the opinion of the scout council members that at least 400 scouts should be enrolled in Connellsville. The employment of a scout executive to serve throughout the year will be determined by the results obtained during the summer months.

Mr. Folk, who is teacher of chemistry in the high school, has had a wide experience with boys of different parts of the state. He served as coach of the football team during the last season, in which capacity he displayed his ability to secure and hold the confidence of the boys and enlist their cooperation and develop an appreciation of the value of "team work."

The father and son banquet, which was postponed on account of the Interchurch campaign and other events, will be held at an early date to be determined by the arrangements that can be made for a suitable place in which to hold this event, which is very popular with the scouts. The scout masters and Scout Commissioner Witt will have charge of all the arrangements except securing a speaker which will be taken care of by a committee appointed last evening.
A committee was appointed to confer with Rev. Father Burns and officers of the Parochial Cadets, who have expressed a desire to transfer that organization to the Boy Scouts.

PREPARE FOR FINISH

Teams Securing Fund for Company D Will Complete Drive.

The teams of men who are securing \$3,000 for a company fund for Company D will complete the drive when the full quota of men has been secured for the unit. More than half the sum has already been subscribed by Connellsville people and in order to have the full \$3,000 placed to the credit of the company a few more men are needed.

The committee chairman has said he will get his men together immediately the 100th man enlists in the company and as recruiting outside of Connellsville has been begun this number should be quickly attained. The remainder of the money can be easily secured if the effort is put forth, it is believed.

Mrs. Clarissa Hardy, 86 years old, better known to her many friends as "Aunt Clarissa," died Monday afternoon at the home of her daughter, Mrs. Charles Mankin on Hardy Hill, Dunbar, following an illness due to the infirmities of old age and a fractured hip suffered some time ago from a fall. The deceased was born on Hardy Hill and spent all her life there. Her father, Henry Lowery, was one of the early well-known men of that time, when Dunbar was known because of the location of the old Dunbar iron furnace, the forerunner of the great plants of today. She married William Hardy and to the union 12 children were born, the following of whom survive: Mrs. Charles Mankin, James W. and Isaac Hardy, all of Dunbar; Mrs. Gaylord Randolph, Brownsville; Mrs. J. T. Beatty, Vanderbilt. Mrs. Hardy is also survived by 66 grandchildren, 85 great grandchildren and an unusual number of great great grandchildren. She lived to see nearly 200 descendants born into the world. By her kind and gentle manner Mrs. Hardy won the friendship and esteem of all with whom she came in contact. Mr. Hardy died several years ago.

Stream From Brickman Well So Strong It Strips Off His Clothing. MCKEESPORT, April 27.—William Blair, 35 years old, of Eau Claire, is in the McKeesport hospital suffering from slight cuts in the face and body as a result of a peculiar accident occurring at the Brickman gas well, McKeesport, Saturday afternoon. Blair, it is said, was standing in the derrick room of the well assisting in the placing of the six-inch casing when an unexpected flow of gas issued from the well, blowing a section of the casing out of the hole high into the air.

The stream of gas, was so powerful that it stripped the clothing from Blair and carried it to the top of the derrick, where it lodged in the crown block. Chinders and other debris issuing from the well indicated the injuries received by Blair.

A WORLD REBUILT

*By the Golden Rule
not by the Rule of Gold*

WHAT ARE the most precious elements in American Life?

Respect for the home? Jesus found women slaves; He made them companions. Down through the ages His Church has been the champion of women's rights and aspirations.

Respect for the man who works? It was the Carpenter of Nazareth who gave labor its great charter. "You are sons of God," He said. In that sentence Democracy was born.

Respect for property? Modern business is credit; and credit is character. All that makes property safe in the world is bound up in the reverence for law that religion breeds.

Respect for education? Who gave America her colleges? They were founded by Christian ministers, almost all of them.

On these great essentials must we build a better America, and a better world. And every one of them rests on the foundations of the Christian Church.

Thirty denominations of that Church are uniting now in a simultaneous campaign.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including

the Church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The appeal is to every lover of America, to you whether you are inside the Church or out. The rebuilding of the world is a spiritual task. Faith must be the cornerstone on which the new foundations are laid true; the measuring rod by which the builders build must be the Golden Rule.

Give when the call comes to you—give with your heart as well as your pocket-book

TUESDAY EVENING, APR. 27, 1926.

FEEDING OURSELVES.

If there was need for "war gardens" a few years ago, when an apple was being made to help feed our Allies, there is equally urgent need at this time to make similar provision for feeding ourselves.

There is not only a shortage of food but a shortage of labor to produce it. In all parts of the country farmers are limiting their spring planting to an acreage that will provide for the needs of their families which means that the surplus products for the markets will be reduced proportionately. Market gardeners, faced with the same shortage of labor by which the farmers are contented will not be able to grow more than a small part of the products they would otherwise be able to raise. In view of these facts and conditions it is plain that there will be a scarcity of farm and garden products with which to supply the markets of the country. Moreover, yielding to the unchanging law of supply and demand, the prices for such food stuffs as will be produced are certain to be even higher than have ruled during the past two seasons.

Facing this condition which is serious every person who has the opportunity to cultivate a patch of ground will need to get busy just as soon as the weather becomes seasonable. In our burst of patriotic fervor during the war we planted "war gardens" aggregating many thousands of acres. Many of them were failures due largely to inexperience and lack of proper attention, but on the whole the benefit derived was incalculable. Profiting by the lessons thus learned the home garden ought to be more than an experiment this season. It will be a success to the extent to which thought and care are given to the planting and cultivation.

Ever since this season will mean a lessened demand upon the markets and greater opportunity for those who cannot obtain gardening privileges to secure their vegetables in needed quantity and at reasonable prices. You will have a fresh supply of your own to carry you through the season without having to depend upon what will very probably be an under-supplied and high priced market.

There are few householders who do not have a patch of ground available or can secure the privilege at the near neighborhood. Plant something no matter how limited the space you may have for your farm. Onions, lettuce, tomatoes, beets, radishes, beans, cabbages, carrots, parsnips and the like require very little room in the garden but they will help out wonderfully to fill the depleted family larder.

The Lord helps those who help themselves in the matter of gardening just as He does in other and larger concerns of life. Hunt for your garden tools and make ready to provide both your faith and your foresight.

THE PUBLIC FOOLED BY THE "OVERALL CLUB."

The suggestion of the Connelville Trades & Labor Council that the wearing of old clothes will be much more effective as a means of bringing about a reduction in the prices of clothing than joining an "overall club" expresses the view of the average citizen who has given very much thought to the new fad. Members of the council being themselves wearers of overalls as the garb of their daily employment are well aware that any increased demand for these garments over and above the ordinary needs of the real users of them means an increase in price. This condition has already resulted in many sections of the country where the formation of clubs has taken hold upon the popular fancy and like all movements of its character is certain to be short-lived. If advances in the price of overalls become general any advantage gained by the protest will thus be more than offset by the high price workers must pay for their necessary garments.

That the overall movement has had little effect in the direction of reducing prices for ordinary clothing is observable from a study of the reports of market conditions in the clothing centers. Philadelphia may be taken as a fair example, a report from that city being as follows:

"Clothing manufacturers cannot see the prices of clothing going down. Slashing of prices by retailers they say, will have no effect on the price of clothing for the future. Manufacturers of summer clothing predict a greater volume of the various tropical suits known generally as Palm Beach. They calculate that a number of men who heretofore have not worn suits of this fabric will see in it an economy. The present overall craze has helped to pave the way for a bigger business

than ever in summer clothing of lightest weight.

Another interesting sidelight on the overall craze is furnished in a statement credited to a New York overall manufacturer who recently sold out his interest after the stock of his company had jumped from 4 to 600 as a result of the increased demand for its products. This man, who made millions in his deal and is now in Paris spending his money lavishly says that the overall club was the creation of a bright newspaper reporter who after unfolding his scheme to a large manufacturer of overalls, was paid \$10,000 for his idea and made public manager of the enterprise. As the result of his efforts the club plan has spread to all parts of the country and his employers have had good reason to regard their investment in his services as highly profitable.

If this be true, as it no doubt is, the American public has been fooled by one of the cleverest publicity stunts ever pulled off. It shows too how unsound the basis upon which the overall club plan of reducing clothing costs really is. At the same time it emphasizes the fact that the practice of habits of personal economy, industry and thrift are after all the best means with which to combat the tendency to excessive prices for any class of articles in the use of which we can apply restrictions.

With Tom Watson and Hoke Smith eclipsing the Palmer boom in Georgia, William J. Bryan winning a place in the Nebraska delegation to the San Francisco delegation and Senator Hitchcock the erstwhile spokesman of the White House declaring his distinguished occupant lacked tact and forethought in handling the treaty situation it will take a more cheerful optimist than a Mitchel Palmer to derive much comfort out of the present situation as it relates to submitting the League of Nations issue to a solemn referendum.

If you have moved since the last election you must get a move on to tomorrow and register in your new voting place or you may be moved next November. Approach yourself for your neglect and lost vote.

Congress having entered upon an investigation of the news print situation in advance in the price may now be expected. The paper makers like the poverty stricken sugar manufacturers who are being investigated must provide some means like adding a cent to the price of meeting the expense of sending their experts to Washington.

The reports of no decision to the Supreme Court on an important question make rather dry reading in some quarters.

The Georgia Result.

The combined anti-Palmer (or anti-administration) vote in Georgia is 242 or a majority of 192 over the vote given Mr. Palmer. It cannot be said that this is a flattering either to the attorney general or to his chief. Nor is it greatly flattering to Clark Howell and his Atlanta Constitution. The interest in the result lies in the light it throws on the popular sentiment of the Democratic party touching the foreign policy of President Wilson. It was the paramount question in the primary campaign. Administration organs and organs of the opposition were at the point that a failure of Democrats in Georgia to support Mr. Palmer would be a repudiation of President Wilson and a rejection of the League of Nations.

Well this is precisely what happened. The voters of Georgia have overwhelmingly repudiated the administration. They have decisively rejected the League of Nations. They have doubtless at the same time expressed their feeling with respect to the heresy hunting and witch burning which the Department of Justice has undertaken to popularize and incidentally to capitalize for political purposes.

THE HOUSE WHERE THE CHILDREN PLAY.

On every street there is a certain place. Where the children gather to romp and race. There is a certain house where they meet in throngs. To play their games and to sing their songs. And they trample I know with their careless feet. And they scatter their playthings about the street. But though some order them off I say. Let the house be mine where the children play. Armes gather about the door. And fill the air with their battle roar. Corbys swinging their lariat loops. Dash round the house with the wildest whoops. And old folks have to look out when they are holding an Indian tribe at bay. For danger may find them or flying feet. Who pass by the house where the children meet.

There are laws too lovely to bear the heat. Of a troop of boys when they roller skate. There are porches fine that must never be known. The stamping of footsteps that come and go. But on every street there is a favorite place. Where the children gather to romp and race. And I'm glad in my heart that it's mine to say. Ours is the house where the children play.

Keep The System Clean And You'll Be Healthy

Elimination helps to avoid colds, headaches and epidemics

ANYONE who has watched himself know there is nothing so important to health and comfort as regular daily elimination. Half of the minor illnesses of life are due to neglect of this. The five million men who were in our army know the importance of the doctor attached to this function.

By all means try to regulate yourself by intelligent diet and exercise, but when these fail you will need a laxative, one as near to nature in its action as skill can make it. In the opinion of many thousands of good Americans such a one is Dr. Caldwell's Syrup Pepsin, which is a combination of simple laxative herbs with pepsin. It acts promptly, gently and without griping and will with certainty regulate any tendency to constipation that you may have.

Take it when you feel drowsy, dizzy or bilious, when you feel a cold or a fever coming on, when there is an epidemic, when you have eaten anything about which you are in doubt. It is at such times that you need to be free of poisons and of fermenting foods. You can buy Dr. Caldwell's Syrup Pepsin at any drug store. Thousands of families have it constantly in the house against emergencies.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest-selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

A RICH BOON TO JNO. F. HEIN AND 6-YEAR-OLD BOY

Nerv-Worth Quickly Makes a "Real Man" of the Father.

It is a standing claim that Nerv-Worth is truly a family tonic, blessing equally the nervous child, the worn-out veteran and men and women of all ages. Here is new proof of the claim:

"I was in a very nervous condition. Could not get enough sleep to give me any rest and I got to a point where I could not properly digest my food. Was losing strength and weight and was going down fast. Felt tired all the time and especially of mornings. Could not find anything that would help me in the least until I tried Nerv-Worth. Two bottles put me right. No more nervousness, sleep soundly, eat heartily and digest my food. Am gaining strength and weight and work every day. In fact I feel like a real man again. My son, six years old, would refuse to eat. Had to force him. Was feeling bad and listless all the time. I gave him some Nerv-Worth and now we have to restrain him from eating too much. He is now vigorous and healthy. I recommend very highly Nerv-Worth as a family tonic. It is a medicine with real merit."

COKE UNIFORMS AND OTHER EQUIPMENT ARRIVE

Through the cloudy and rainy weather of yesterday a ray of sunshine appeared with the arrival of the miffy uniforms for the Connellsville Independents. The uniforms are all that can be expected in the way of "class." That the players will be proud of them and in return do no question. With the playing raiment, other playing paraphernalia, such as gloves, bats, bases and other equipment were also received. It is planned to put some of the uniforms on exhibition in some of the store windows today.

The directors of the club will meet tonight to discuss the seating arrangements for Fayette Field. There is no doubt, it is believed, that the public will respond to the appeal for funds now that they know the baseball project will go through. It is expected that after viewing the uniforms the people will assist the club officials with the necessary amount so that they can proceed to erect stands.

BOXING

The statement that the Keystone Boxing club of Pittsburgh intended to put on boxing shows in conjunction with the speedway races that are to be held this season at Uniontown, seems to be unfounded. In an interview, A. E. Corrus, one of the officials of the speedway association, yesterday said: "It's news to me that the Keystone club will hold bouts in conjunction with our speedway races this season. Last year such a program was given serious thought by us, but when we went into the matter thoroughly we saw that it would not pay. We have fully decided not to have anything at our races but auto races, and nothing will change our plans in this respect."

Although the speedway will not have anything to do with boxing shows, arrangements are being made to put on bouts the nights preceding the races. It can be positively stated that the Keystone club will not have a hand in the affair, it being entirely a local affair.

BASEBALL CHURCH.

The Trotter baseball management is waiting to hear from the Everson baseball club in regard to the game which is supposed to take place at Trotter next Saturday. As Trotter expects to play a return game at Everson and will pay its own expenses, Everson should come over on the same terms, it is asserted.

The other afternoon an inter-class game of baseball was played by the students of the seventh and eighth grades of C. H. S. We are sorry we can not print the score, as it was not properly made out; in fact, it was not made out at all. Teams desiring their scores published in these columns will have to live up to the rules in this matter. Make out your scores correctly and they will be published.

What the pitcher must not do under the rules, as amended for 1920: He must not rub the ball in the soil. He must not discolor it with tobacco, paraffin or other foreign substance.

He must not expectorate upon it. He must not roughen the surface with sand paper, emery paper or other hard substance. He will not even be permitted to bound it to an infielder, in order that the cover may be slightly abraded.

No other player is permitted to commit any of the above offenses and then toss the ball to the pitcher for delivery. If the pitcher delivers the ball to the batter after this is done he is arbitrarily suspended for 10 days.

The correct position for the pitcher to assume when he receives the ball for delivery is to stand on the plate holding it in front of him with both hands. He cannot take either hand from the ball unless he is intending to throw it to first base or deliver it to the batter.

If he drops the ball in the act of delivering it to the batter it is a balk.

This latter now makes the balk rule uniform in both major leagues. It had not been so previously.

Try it once and see if it doesn't work out to perfection!"

FAVORING "KNOT HOLE GANG"

Action of Owners of St. Louis Nationals in Admitting Youngsters Is Approved.

Each one must decide for himself what business policy he would best pursue in running a baseball team, but it may be said that a lot of us feel like commending the ownership of the St. Louis Nationals for organizing a "knot hole gang" of boys between the ages of ten and 16 years and approved moral character, for the purpose of admitting them free to local games.

Those of us whose parents could not afford to give us entrance money will recall with thrill our early experiences at the knot hole. My own face never got normal from the right eye sprain habit then contracted, says a writer in the Milwaukee Sentinel. It was a great experience and many of us will recall the genuine excitement of retrieving a ball and getting in to a seat.

Those were great days! The boy of today is the patron of tomorrow, and so it is good business judgment, if nothing else—and we prefer to think it is something better—to let these boys in free.

At the Theatres

THE PARAMOUNT.

"DADS"—An interesting attraction featuring Tom Moore, is being shown today. This is a story of post-war effects. When the world had been released from the phobias of the war there were problems to be solved, not the least of which was the return to civilian life of the young men returning from France. Men, who before the war, were content with occupations that offered little or no variation or excitement, on their return from the war zone, became discontented and dreaded returning to their previous occupations because the dullness that halted their return to civilian life. Practically all of them devoted their time in searching for jobs that would give them the thrills of their army experience.

Wednesday and Thursday Mary MacLaren will be featured in "The Road to Divorce," which has been wrought with a great deal of skill and fine feeling.

THE SOISSON.

"THE BLOOD-BARRIER"—Starring Sylvia Breamer, the well known screen star, is being shown today and will also be presented tomorrow. The plot of "The Blood Barrier" revolves about a triangular romance and the efforts of a foreign agency to recover valuable dye formulas. A jealous husband and some clever spies raise a blood barrier between two staunch hearts.

J. Stuart Blackton produced and directed the picture for Pathe. Miss Breamer enacts the role of the wife whose love for her husband turns to hate because of his insane jealousy. Mr. Gordon plays the part of a major in possession of secret dye formulas that formerly belonged to Germany. William R. Dunn is the villainous husband; Louis Dean and Margaret Barry are spies, and Eddy Dunn and Gus Alexander play a large part in the working out of the plot.

Thursday and Friday and Saturday Norma Talmadge will be seen in "A Daughter of Two Worlds."

THE ARCADE.

Heralded throughout the country as the greatest exponent of theatrical America, has ever seen, Mrs. Eva Fay started capacity audiences at the Arcade theatre last night in her wonderful exhibition of thought reading. While seated on the stage, and with no confederates to help her out Mrs. Fay answers scores of questions by simply defining what the interrogators wanted after they had given the matter concentrated thought. Scores of prominent Conneltsville people were in the audience and many of them asked questions of a widely different nature. To all of them she gave ready answer. Without in any way appearing to ridicule her questioners, Mrs. Fay frequently injected comedy into her replies causing numerous laughs. The manner in which she called out names with nothing to guide her and the correctness with which she interpreted what was silently asked, went beyond the mysterious, even closely approaching the weird. Willard's Beauty Parlors presented a very clever little musical comedy entitled "On the Campus." The bill is replete with many novelties. On the screen is a western comedy with Marie Walcamp. The same bill will be presented again today with a complete change of program Wednesday and Thursday.

Perryopolis Oil & Gas Company

PERRYOPOLIS, PA.

A Co-Partnership.

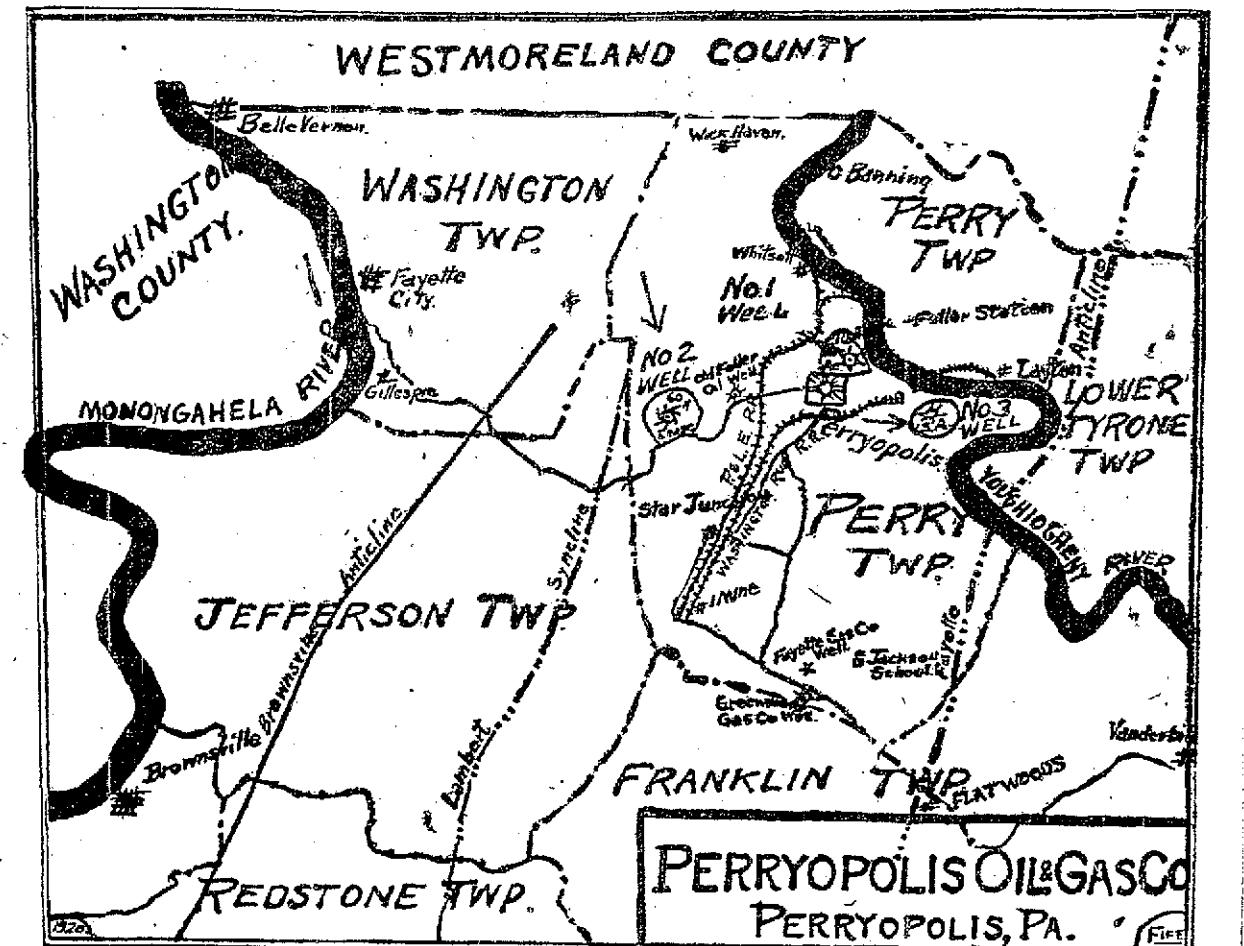

CAPITAL \$75,000.00.

SHARES \$100.00 EACH.

THREE WELLS. 188 ACRES.

We are not selling stock to get money to drill on our own leases. The leases, covering three farms and together making one hundred eighty-eight acres, have been assigned to the Perryopolis Oil and Gas Company and are the property of the stockholders. The farms do not join, but were selected by experienced men because of their location between the large Fayette Anticline and the Lambert Syncline.

Two large gas companies have been paying rental for years on thousands of acres in this territory and one of our leases is almost entirely surrounded by the holdings of one of these companies.

Arrows point to locations where proposed wells will be drilled. Note Fayette Gas Co. well and Greensboro Gas Co. well—both producers. Our No. 3 well will be nearer the Fayette Anticline than these wells and our No. 1 well will be almost as near. No. 2 well is in the Lambert Syncline and near old Fuller oil well.

Subscriptions for stock entered in the order received.

Sure Death to Corns

"Get-It" Makes 'Em Lose Their Grip and Lift Off Painlessly.

The first thing "Get-It" does when it lands on a corn or callus is to snuff out the pain. Then it shrivels the corn or callus and loosens it.

"Get-It" is almost ready to fall off. You help it just a little by lifting it off with thumb and finger. You don't even feel it because there is no hurt left in it. Millions have proved it the cleanest, safest, and most pleasant method.

"Get-It" is the most famous, guaranteed money-back corn remover out there. It's at any drug store. Mfg. by Dr. Lawrence & Co., Chicago.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh of a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arvine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arvine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

Take a Severe Cold.

"Our five year old son Paul took a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were getting worried about him as the winter wore on. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it, and the first dose benefited him so much that I continued giving it to him until he was cured," writes Mrs. Frank Crocker, Pana, Ill.—Adv.
